Community Engagement

May 30, 2023

School Planning

Our school planning process is connected to District and Ministry guidelines including:

- FESL – Framework for Enhancing Student Learning
- SD6 Strategic Plan
 - Priority 1: Equity, Diversity, and Inclusion
 - Priority 2: Success for each learner
 - Priority 3: Growing the capacity of self and others
 - Priority 4: Stewardship for the future

Mission

We take care of ourselves, each other, this place, and this land.

Vision

Everyone belongs and learns here.

Values

- Relationships
- Kindness
- Wellbeing
- Creativity
- Communication
- Trust

Priority 1: Equity, Diversity, and Inclusion

We strive to meet the needs of each of our unique learners through activities for everyone.

Goal: To increase student's sense of belonging using "Friendship Fridays" to extend sense of community beyond the classroom.

Priority 2: Success for each learner

In 2022-23 staff used real-life numeracy tasks in-class and outdoors on a weekly basis.

Goal 1: To increase numeracy achievement for all students by explaining the intention for the lesson and how students will be successful in each task.

Priority 2: Success for each learner

In 2022-23 most classes used a structured oral literacy program to help students break apart speech sounds to help with reading and writing.

Goal 2: To improve literacy achievement for all students by consistently using an oral literacy program in every class each day.

Priority 3: Growing the capacity of self and others

In 2022-23 we implemented a model of collaboration called Learning Rounds with teachers participating multiple times.

Goal: To increase the frequency and quality of professional collaboration by customizing this model in 2023-24.

Priority 4: Stewardship for the future

Staff at LPES have a strong practice in taking students outdoors for activities in nearby areas and natural spaces.

Goal: To increase the curricular connections for outdoor, place-based lessons.

Question 1

What are some creative suggestions for things we can do in our school to continually improve?

Question 2

What are some examples of key things you appreciate, or think are working well about our schools?

Question 3

What are some examples of things you think our students should be able to experience or accomplish to enhance their learning they currently do not have access to?
