- II. Principles Report:
 - a. Response rates were low for feedback on the school plan for next year. In the past there were several goals, but going forward the intention is to have one overarching theme. Staff have looked at core competencies and come up with wellbeing and mental health and resolving problems and self regulation. Over three staff meetings efforts have been made to narrow this down, and self regulation will be the central theme. The first goal is to get staff aligned on what is included within this. Pac member feedback was requested:
 - Pac member feedback on what regulation includes:
 - De-escalation of stressful situations,
 - recognizing the space between situation and action,
 - helping kids to identify different time periods impact them differently,
 - what is appropriate right now,
 - expectations of behavior,
 - how physical state of being (tired, hungry, overwhelmed) tie in with emotional responses
 - ii. Are there any in class practices that work well with regulation
 - Calming exercises: dots activity (spot of emotion)
